

2022 German Meeting K about FEU

Topics

June 6th fully booked

Want to get group of 10 to 20 Germans at same time to register in EU; EU has soul like the STM, it remembers .

Leading space organization wants to bring group of their people to go in EU;

Resurrection Part 2 excerpt

Refers to John's testimonial of being in system some months ago;

If you can make the EU disappear - bring it back

Control EU with your emotion

Tooth implants and other small things okay

Chinese tested it with boy with titanium plate in head - was okay

Don't leave your body in the EU, take it back. You are connected to body - like bungee jump - come back to it - like soul travel in dream. We have other knowledge about this not in public ; As long as your body on bed cannot leave P. Death process is something different.

About not eating food - want to eat later - don't have desire ; loose 20 kg first week than body balances;

Gold in teeth is okay, but Cu spiral in uterus would be a problem in EU.

Homemade machine not same - their T not in public

Germans or Dutch speaking or Austrians, you are the center of the technology (T) in Europe. Will create hundreds of thousands of job in new T; Can't rely on political situation in America; Plan to open on Frankfurt Stock Market

Q: Can you tell us more about the German speaking part in the peace process, that our people are deeply traumatized by the Nazi history is there a connection how do we relate to the Pl T?

K- If I can be very blunt ..KF HQ sits where more or less Hitler started. We do not look at the way you look at a German, to me German , Austrian and English is all the same. It's you who has to forget about the past. make a new way for the future. What is gone is past, you can't change it. The only way , it's a memory, (:42). it's not an energy. We cannot change memories. We cannot change whatever has happened in the past. Germany and Austria are one of the most successful nations in the West

Some people expecting to see a flight on 6th of June?

K- Who says, it can happen, if you make it happen, you can fly the EU. system is set to do.

We don't give too much information out.

If you accidentally land in Hyde park give our number, they'll get you back.
There is a secret we are not going to release.

Detachment is secret to use FEU

Don't go with a lot of expectations .

listen to John's testimonial North American teaching.

English Transcription :

(:00).

K- We'll give something special for those who book ..

Like brother and sister coming .

I am looking for a lot of details .

Q: Brother and sister won't be in there at the same time right?

K- We want them once together and once separate. Yes, we want to try every combination. If you book a block of 20 we'll come to some sort of structure for us , how we'll do it. .. maybe we put you in 30 times, because we want to understand more, how it's controlled ..

Translates (T) >>. (:02).

Q: If someone online ..

K- By tomorrow , any booking is responded back within 24 hours. We are monitoring this very closely.

T..

(:04). Monday 6th is completely full.

If you book 20 we want to talk to you straight away .. create a structure ..

Q: .. (:06). will be possible to get information what happened to the people ..

K- We'll announce on Thursday that we'll try to do that on Monday ..

On North American teaching .. KS revealed how he felt first time in the system a few months ago. .. (John's testimonial (5/29/2022)

(:08).

T..

Q: Why is it called a simulation ?

K- .. it's a technicality by the way it works. (safer word to use) (:10).

Q: Will it happen after 30 minutes of the session the EU will disappear?

K- Bring it back if you do it, please.

T..

K- even a few hours ago , we are in communication with some of the leading space agencies. They want to bring a bunch of their people to go through trial. Because they know our work. ..

They said they need training. .. I said, that is the past .. we don't need training .

(:12).

Who manages to control their emotion with it.

T..

Q: .. functionality .. about implants in body .. what are problems . . what kind of implants can people have ?

K- This is a flight system (FS) this is not a medical system. As part of the structure and fields we use, .. you go through the whole structure of wellness hunger .. (:14). We are interacting

We advise people with heart ?? , pacemakers , shoulder of hip replacement, plate on spine fusing body .. we will not allow these for the time being to use the system . If you have a little pin in your foot, or little implant in tooth , we don't see much problem .. We done test before. in Chinese military .. doctors from Beijing. . most advance hospital .. a teenager with titanium plate in head ...

(:16).

We saw no problem and the vision of the boy came back quite drastically ..

If you had a hip replacement we play it safe for the time being. .. in the future we do ..

T.. (:18).

Q: Is it possible that someone is not coming back. and what would happen with the body?

K- We don't want your body, take it back. You are connected to that body. This is one of the reasons we go through this test. There is no way you can ?? be because there is other knowledge we have. which is not in public. As long as you're body is in bed, your soul cannot leave. Because the STP, the dimension (D) of the existence is within the machine. When you die it's a different process, When you are alive and you go through this process. You don't when you dream do you? .. I cannot put it any simpler than that

Q: SO you don't die in the machine. right?

K- I hope not. These are FS, .. plasmatic field systems.

T.. (:20).

Q: If we take energy and feed through the Soul, once we get used to the process, and after that if we still eat something, would the effect that we got be lost. We basically possible to live without food?

K- You will live without food.

Q: If you eat after that?

K- KS in China have tried it. But they can't eat. Because there is no desire to eat. The tests done with a number of Chinese several hundred Chinese are going through this process. (:22). It's not 1 or 2. The ones we know they don't feel like eating.

Q: SO they don't miss anything.

K- No. They report about 20 kg loss in first weeks, and then the body balances . They report different pattern of sleep, .. very calmness. There is no rush to do anything, there is always time.

T ..

Q: Is it possible to visit Monday Linz without booking it. (:24).

K- No. even the ones we book, will be told what time they come in. .I not all come in together. max 1 to 2 hours in the building .

T..

Q: . if you have gold in teeth or a Cu spiral in uterus would that be a problem?

K- gold we don't mind ... spiral in uterus no (can't do).

Q: Is there a procedure we can make use of our self-made equipment at home, like MaGrav coils, Gans's to enjoy a similar experience?

K- No. These are not, the T is not what is in public. (:26). .. that you can replicate.

T..

Q: with what intention I go into the system or it will come to me is the purpose for healing or entertainment?

K- That's your decision we don't make any decision you're the captain. There is no preset. Like the family if they book 20 sessions, we would like to do some tests with that family .. how would the captain follow, or who would take charge trust ..

(:28).

Q: Can these units be bought.

K- Yes, can you afford it. FS valued at 10 million. .. these will be much higher .. we haven't valued ..

K- Is there anyone here who can afford it .. . (:30).

You Germans or Dutch speaking or Austrians, you are the center of the technology (T) in Europe. One of the things which we look is to make Austria and .. Germany the center of the new space T, this is what we are doing, not planning. So any kind of investments we always listen to We have the Americans, Russian Chinese, in Europe we don't have. It will create hundreds of thousands of jobs ...

We have realized even with Corona we can't rely on China anymore. We know with the political situation (:32). we can't rely on Americans. It's important to build Austria and Germany due to technological advances you have to make it create new jobs and T out of it with the KF. If you can buy it. .. we collaborate with you ..

T ..

(:34). K- if you have capital to work with us .

The HQ worldwide now is transferred to Austria .. So we become a German speaking organization . to float the European operation in German stock market in Frankfurt

Q: what kind of company

K- We are already here .. in next 1 to 2 years to join stock market.

Everything happens through Austria.

(:36).

Q: planning a health center looking for support

K- What does that mean?

Q: ... (:38).

They already have structure .. they are looking for EU to get going.

K- Somebody has to pay for it to get it going.

K- Do they have the finances to buy EU? Or they are looking for someone to pay for it?

Q: They said they will talk about it

K- No problem

(:40).

Q: Can you tell us more about the German speaking part in the peace process, that our people are deeply traumatized by the Nazi history is there a connection how do we relate to the PI T.

K- If I can be very blunt .. .KF HQ sits where more or less Hitler started. We do not look at the way you look at a German, to me German , Austrian and English is all the same. It's you who has to forget about the past. make a new way for the future. What is gone is past, you can't change it. The only way , it's a memory, (:42). it's not an energy. We cannot change memories. We cannot change whatever has happened in the past. Germany and Austria are one of the most successful nations in the West.

(:44).

Resurrection further clarified (:44:03 to 55:20). proofed

Q: .. In Christianity there is the last judgment and resurrection, when we will be able to, we are plasma (PI) fields to expand the human soul in such a way, that the Soul of the Physicality (STP) and thus physicality (P), is absorbed by the essence of existence. There will be no more physical death, on the other hand the deceased must not return to P, at least not via the Unit. What is the overall context here?

K- I understand what .. is trying to explain. If you understand how PI works and interacts then it's easy to understand, resurrection is impossible. When we call it resurrection, is when the STP and the P, and the STM have separated, and the P disintegrated. There is a difference between death when the P is disintegrated and gone, then transmutation and transportation (T&T) of P with the STM.

Because when you travel with the STM and you embrace the STP, the P becomes part of it. The P is not destroyed, so never needs to be resurrected.

But if you speak about resurrection as they do in Christianity and other religions, (:46). they try to elaborate on it. The physical part has been eaten, has been disintegrated to other animals, or to the ground, or whatever. You can resurrect the soul, but you ?? cannot resurrect the P ?? .

But at the same time, when you extend the soul to cover the P, then you are not, you don't die, it's part of the same. It's very clear cut, and that's why, we say, you cannot bring the father back to live with you (if you travel with the soul to see him), because the D of P, which created him is not there.

You can regenerate yourself as another being on the moon, because you carry that STP with you. The STP is separated from the STM on the point of death, and with the P. You can create a vision of the father, the way you do when you dream, but you cannot physically bring the father back, because the STP, what we call the spirit, is disconnected from the P, which was connected to it. It's a very clear understanding.

Resurrection is impossibility, but T&T and embodiment of the P in the STM and vice versa, because it's still the same, it's never been separated, it's possible.

Q: So Christ did not die? in P?

K- Did he?

Q: Not if he was resurrected, then .. then he didn't die.

K- Did he? (:48).

Q: Apparently not.

K- He did not die on the cross. He walked away with his soul, and then he took another D in P and walked off. I have explained this in very detailed before. It's what you will do, if.

Let me explain to you. Do you want to translate, and then I'll explain something else.

T.. (:50).

K- We now understand with the knowledge we have, you can be, look dead, but you are not dead. In Europe you had a tradition, part of Europe, that you leave the dead, they used to leave the dead body on the table for a day or two, because sometimes people used to wake up, come back. Did they resurrect?

Q: That's what people call, brain dead, when people are not actually dead, people call brain dead.

K- Yeah, but it's been the tradition in Europe, it's very common, because they call it, "last bell." People used put people in graves, and then put a string and bell outside, if they wake up they can ring the bell, somebody goes and digs them out.

In respect to crucifixion of Christ, it's the same. But the soul of Christ left the body, but never separated from the body. When you brought the body down, and you placed it, he came back to the body. It's what we teach you now. What the system you come to Linz, will do for you. Then understanding the way we tell you, that when you go to Mars you look different. You can go from, manifest yourself in New York as a white, blue, (:52). and manifest yourself in Africa as a black, brown, tall guy. Now it's possible, we know how it is done, and we create ?? , we saw it in the crisis, with Corona in China, with the doctors who changed (2 doctors in 2020 turned black).

So what Christ did, he did not separated his Soul from the STP, because he was not dead, physically he was still alive. He was still, body worked in function. But the soul became separated, and when the soul came back to the body, to reunion, to be with it again, together, whatever you call it, coming back from a dream. He was aware of his embodiment. They knew who he is. He changed himself and he walked off. You call it resurrection. Scientifically it can be done. We can explain it fully now. If we put you under certain pressures, or certain conditions, while we are watching you, you will see it happen in the Enhancement Unit, you will change color, you will change the desire to what color of eye, or skin you will have.

Christ never died on the cross. But when he came back, the soul came back to the body he was aware, that they won't let him stay alive. With the knowledge, or what he had as a power, he changed he walked off all the way, to the what we call, the Maltese and back on to Spain and France border. (:54).

We've seen it. We have the knowledge, and many of you can repeat it. This is what, why we explain it scientifically, the strength of the STM, and the strength of the STP, and any changes in them will change manifestation of P. You can do it in one generation, you can do it instantaneously.

Now we know, the knowledge is very clear. Soon many of you in the EU learning it, you'll be. You'll go to Jamaica you enjoy the way they dance, speak, eat. You change yourself to Jamaican. Now we know it can be done, and there is a system for it, to do it if you want to. So resurrection , is understanding it, is impossible because you cannot, if the body, and STP separate, yes. (:55:20).

T ... (:58).

K- I want to ask question to people here. How many of you can come to Linz for the flight test ..

As one group of Germans.

Q: You mean the different people come as 1 group.

K- Yes, because Germany, or German speaking, is the only group which we can bring in, because you are all part of us, in a way in Germany and Austria, that we can see the effect of the system on the culture, and language. We want to people who come they come from different part of the world, different culture language . .

We want to bring a group of Germans together. This is why I approached you yesterday .. I am looking for maybe 20 of you if you are related or not , doesn't matter. come to center as one race I want to see the response of the system. (1:00).

We are part of the same structure. as you know with the universal language group.

we allocate 1 day, I want to see if the system responds to 1 language ..

(1:02).

Q: is it restricted to German or German speaking ..

K- German speaking ..

T...

(1:04).

K- All the Germans have an implant ..

organizing group >>

(1:06).

Every time we get more people into the system, the system has a structure like the STM with a center that it remembers data it collects. I want to put that in before.

Q: What is the time frame ..

(1:08).

This is one of the reasons we want to do before it gets added to in the structure ..

(1:10).

Q: .. Some people are were expecting a flight on the 6th June.

K- Who said we are not doing it

Q: That you can do it in 5 minutes

K- Who said we can't do it. you are the captain, the system is set to do it.

Q: So the possibility to liftoff, we don't need an agreement because it's a different kind of system?

K- There is an agreement we signed which .. (1:12);. we don't give too much information out. But we'll see what happens.

Q: We don't need a government permit.

K- I don't think so would you need a if you land on the moon.

Q:

K- If you accidentally end up in Hyde park ..

There is a secret we are not going to release, This is an option we gave to the Americans when we started the negotiation. So I know what I am talking about. If you end up by accident in some other country, just give them our number and we'll get you back, no problem. You got to bring the craft back anyway.

(1:14).

Q: Will it be a feeling like in flight ..and will that be a feeling.

Detachment

K- You have to tell us how you felt. If you go in with a lot of expectations in your head you'll get nowhere, you'll come back and say it doesn't work The secret to go into these systems and got through it, and get what you want, is detachment. Listen to talk of John in the North American .. if you go with a precondition you get nowhere ..

He tells you he felt the love. He said, it's not like a kiss on the cheek, it's such a deep love, you fall in love with yourself. (1:16). When you go into these systems don't go with a preset line, I want this and I want that. You'll get nothing because you are not giving anything. .. I want to go to NY .. I want to go to NY to show my love to my brother, I know he will be happy to see me. It depends how you go. I am going there because I want to.

You have to understand how these systems work and you get what you want. If you go with attachment and a shopping list, you better don't turn up.

T ..

(:18).

K- I leave it to you to sort it out ..

Thank you for accepting to meet today. I hope I meet many of you

Q: You are looking for IT people ..

(1:20).

K- Thank you very much ... bye bye .

END
